TECHNICAL TRAINING CENTER

2019

A/C Start Up

COURSE DATES

April 24

PPA Training Center
911B South Eisenhower
Blvd
Middletown, PA 17057
717-939-1781

9:00 am –4:00 pm

The PPA Training Center received three new air conditioning and heat pump units in 2018. All facets of refrigeration system installation are covered including planning, piping, brazing, wiring, pump down, prestart checks, and start-up and safety essentials. It will also cover the running of line sets, controls, wiring, and proper start-up of the a/c and h/p system. We will also do recovery, evacuations, and charging by superheat and sub-cooling.

Course Objectives:

- Review installation requirements
- Review installation techniques
- Review start up procedures

Lunch is provided for attendees each day at no additional cost.

Due to the expected popularity of this class only 2 attendees per company will be permitted per day.

Our Instructor: Ed (Eddie) Howell brings over 40 years of industry experience to the PPA technical training program. Eddie began his career working for PA based HVAC company for nearly two decades. He has spent the last 25 years at APR Supply which included managing their training efforts for the 30+ locations. Ed's credentials include Nortek TSA, NATE Certified in four disciplines (A/C, HP, Gas Furnace, and Oil & Gas Hydronics), RSES Member, and local OESP Chapter member.
