CETP 4.3 - INSTALLING APPLIANCES AND INTERIOR VAPOR DISTRIBUTION SYSTEMS

This course is designed to train installation and service personnel on the interior of a piping system as well as the installation of gas appliances. The course addresses selecting and installing appliances, how to design and install interior venting systems, and designing and installing interior piping and tubing.

Registration includes the following:

- Lunch each day
- CETP 4.3 Book
- CETP 4.3 Exam

Prerequisites:

N/A

Instructor: Eric Leskinen is veteran of the industry. Eric has over 30 years of experience with career progression from field operations to corporate direction. He has designed, managed, and executed safety training and compliance programs for multi-state companies with up to 1,100 employees. As a true compliance and safety specialist, his background and skill set is invaluable to propane marketers.
